Tess of the Storm Country

A Superb Screen Gem in an Entirely New Setting

"The World's Sweetheart" in her own brand new version of a world classic the whole world loves—the re-creation of a master piece. A picture that fascinates by its simplicity, captivates by its beauty. The crowning achievement of Mary Pickford's career: as new as it is beautiful.

MRS. THERRIault

PROSPERITY OF THE WEST IS NOW ON A SOLID BASIS

Montreal.—A picture of Western Canada, steadily climbing to prosperity on a solid stable basis, was painted for members of the Montreal branch of the Canadian Credit Men's Trust Association by J. R. Johnston, Edmonton, the national president of the organization, at their monthly luncheon today.

Home and other artificial trade districts had been left behind, Mr. Johnston declared. He described how farming was playing an important part in the development and prosperity of the prairie, and said that in his judgment just one more crop is needed to put this country "over the top."

He was confident this would be a good year for the West and that every business dealer at the end of the year would see some reflection of this in increased orders for the goods they had to offer for sale in Western Canada.

Declares Border Law Menace to Friendship

Toronto Banker Urges Compromise in U.S. Passport Regulations for Canadian Commuters

Buffalo, N.Y., March 25.—An official Canadian Club attending a United States Canada Club meeting in Buffalo, N.Y., today declared that the new passport regulations for Canadian workers in this country must be compromised in some manner if cordial relations between the two countries are to be unimpeded.

"The two countries have been celebrating 11th anniversary of the Bush-Baker treaty which practically eliminated the activity of armed forces along the border," said Mr. Wilson, "and year by year the relations between the people have become more friendly. It is in the midst of all this and at a time when thousands of Canadians and almost an equal number of Americans commute daily from one country to the other, furnishing excellent labor for industries, the United States has announced its new passport regulations."

"I sincerely hope that some compromise will be reached. Canada undoubtedly would rather have the new regulations were to stand."

There are several new proposals respecting boy lander which will be taken up with the British Government this summer. Mr. Porter will visit all the immigration departments agencies in Great Britain and will also visit the Scandinavian countries to confer with authorities there.

Prepare for Advance On Canton

Four Armies of Hanbok Nationalists Ready for Attack Says Report

Geneva.—The Hanbok Nationalist army of the Nationalists (Canton) is reported to be preparing for a general advance upon Canton with four armies.

The armies, it is said, will move through Hunan province, attacking Canton by way of the east and north and utilizing the Red forces distributed in the districts en route. Canton, important source of revenue and a large area, has recently declared its independence of both the Hanbok and Nanking Nationalist regimes. Predicts Population Of Eight Billion

Total Number on Earth in 300 Years Says Geneva Conference

New York.—Within 300 years the human race will reach a total population of 8,000,000,000 persons, the present estimate, says a report of the Geneva conference on the earth's surface, says Professor Albert Penck, of the University of Berlin. He arrived on the Hamburg steamer "Julius Caesar" to attend the bi-centennial of the American Philosophical Society at Philadelphia which is being celebrated in various phases of the celebration.

It is suggested that the mayor of New York should call a public meeting to select a Jubilee committee. This committee would have charge of the program for July 1, 2 and 3, and would appoint sub-committees for various phases of the celebration.

The pamphlet contains suggestions as to decorations, ceremonies and time for the events, with programs regarding railways, school children, taboos, veterans and militia, new comers, old settlers, Indians, etc.

The national committee encourages the main celebration for Friday July 1 with a sports program for Saturday and Thanksgiving service on Sunday.

In this connection, experts have pointed out the likelihood of the United States insisting on the use of these craft to maintain communications with the isolated possessions.

"Dud" Shell Kills Workman

Men Were Removing Debris From Famous Langenscheidt Field

Paris.—The recently laid out of the World War was augmented by three deaths when a terrific explosion occurred on the site of the famous field ground, Langenscheidt, well known to Canadian soldiers. Two workmen engaged in the still uncompleted task of clearing debris from the battlefields, found a giant unexploded shell buried in the earth, soon jarred the brass cap on its nose and was blown to bits in the blast that followed. Another workman standing thirty yards distant was struck by a shell fragment and died in hospital.

PAY TRIBUTE TO BRITAIN FOR AID GIVEN IN CHINA

Vancouver.—Mail advices from Shanghai state details of the first installment sent the British Government by the non-British residents of the Big Oriental city as a tribute to the British Government for the aid given to protect the settlement.

The text of the vote of thanks was as follows:

We, the undersigned, non-British residents of Shanghai, wish to express our appreciation to His Majesty's Government for the prompt and adequate measures taken for the defense of Shanghai. Though we realize that, quite naturally, the despatch of troops was primarily for the defense of its own nationals, an foreigners residing here, of whatever nationality, have benefited equally.

If the British troops had not arrived when they did, we should not all be in an extremely uncomfortable and dangerous condition. We are not actually here forced to leave the place. It is certain that the women and children would have had to be evacuated, and the settlement probably have shared the fate of Hankow and Kiating.

The opinion of the British troops is expressed on all sides that Great Britain, by the courageous stand she has taken in this crisis, has again shown the lead to the whole civilized world.

Cannot Use Word "Doctor"

Decision of Ontario Judge Regarding Chiropractors and Osteopaths

FIX RAIL RATES THAT WILL HELP CANADIAN TRADE

Ottawa.—The order-in-council under which the Board of Railway Commissioners are conducting an inquiry into freight rates promised the industry to fix just and reasonable rates that would encourage and develop Canadian trade.

However, A. F. Fraser, K.C., counsel for the Canadian National Railway, insisted this did not for a moment suggest that the present rates were so unreasonable when the board received the approval of the board.

Conditions were constantly changing, Mr. Fraser said, and what was true at one time might be true at the next. It was not possible to fix rates that would be just and reasonable for all time.

Some discussion arose between Deputy Chief Commissioner Vell and counsel as to exactly what were the limitations of the powers of the Governor-General in council to issue instructions to the board as to the rates which they should proceed to the adjustment of rates. It was agreed that the commissioners were the sole judges of what would be fair and just rates, subject to appeal to the Governor-General in council and His Excellency's power of review were wide, almost to the degree of being arbitrary.

It was further agreed that an order-in-council might be set forth defining certain principles for the adjustment of the Railway Board, but if those principles could be shown to be in conflict with the provisions of the Railway Act, the order-in-council would have to go.
